About SMART

SMART Technology Solutions is a Saudi company started in 2007.
We support companies, institutions and business owners technically in all their services needs.

- IT Solutions & Management
- Business Apps Solutions
- IT Projects Solutions
- Software Development Solutions

- Procurement Solutions
- EduIT Solutions
- Cybersecurity Solutions
- Cloud & DevOps Solutions

About IT Solutions & Management

Building your IT department and infrastructure from A to Z, integrate every hardware and software together cohesively into your environment.

TABLE OF CONTENT

WHY CHOOSE IT Projects Solutions?

At IT Projects Solutions, we are committed to delivering top-tier IT solutions tailored to your business needs.

Here's why partnering with us is the smart choice:

Trusted Expertise:
Skilled in IT project management, cable dressing, and labeling.

Tailored Solutions:
Customized strategies aligned with your business goals.

Cutting-Edge Tech:
We use the latest innovations for future-proof solutions.

Proven Results:
A successful track record across multiple industries.

Clear Communication:
Transparent and open throughout every project.

On-Time Delivery:
We meet deadlines and keep projects on track.

Cost-Effective:
Maximize ROI with high-quality, affordable services.

Ongoing Support:
Continuous post-project support for long-term success.

Data Center Solutions

- IT Data Center Build
- EMS (Environmental Monitoring System) Solution
- Firefighting System
- Air Precision Cooling System
- UPS Solution
- High Availability Design for the Power & Network
- Raised Floor Services
- On-Premise Server & Backup Solution

Lenovo · Finosel intelligent networks · EATON Powering Business Worldwide · APC Legendary Reliability · vmware · TRIPP-LITE

veeAM · Schneider Electric · Hewlett Packard Enterprise · legrand · RITTAL · WATCHDOG SECURITY GROUP

hp · HUAWEI · DELL · Synology · AKCP · AVTECH SECURITY CORP.

IT Data Center Build:

- We deliver end-to-end data center build services, ensuring the creation of scalable, secure, and energy-efficient facilities tailored to your specific organizational needs.

- Our expertise covers everything from design and planning to full implementation and support.

EMS Solution:
(Environmental Monitoring System)

- We implement Environmental Monitoring Systems that provide real-time oversight of critical environmental factors within your data center, such as temperature, humidity, and airflow, ensuring optimal performance and preventing potential failures.

🔥 Firefighting System:

- Our data center firefighting system provides rapid fire detection and suppression using advanced clean agent technology (FM200, Novac), ensuring the safety of critical infrastructure and minimizing operational disruptions.

🌀 Air Precision Cooling System:

- We implement data center air precision cooling system that offers targeted cooling solutions to maintain optimal temperatures and humidity levels, enhancing the efficiency and longevity of critical equipment.

UPS Solution:

- Our Uninterruptible Power Supply (UPS) solutions are designed to protect your data center from power interruptions and fluctuations, ensuring continuous operation and safeguarding critical data and processes.

High Availability Design for the Power & Network:

- We specialize in designing high-availability network architectures that minimize downtime and maximize reliability, ensuring your IT infrastructure remains operational under all conditions.

Raised Floor Services:

- Enhance your data center's flexibility, cooling efficiency, and operational reliability with our Raised Floor Services.

- We provide comprehensive design, installation, and maintenance solutions that ensure optimal airflow management and easy access for cabling and infrastructure upgrades.

On-Premise Server & Backup Solution:

- We provide comprehensive on-premises server solutions, including Active Directory Domain Services for secure user management and authentication.

- Our robust data protection enabls regular, secure backups within your physical infrastructure, ensuring quick data recovery in case of loss or corruption.

IT Infrastructure Maintenance Solutions

- Data Center Maintenance
- Networking Maintenance
- Physical Security Maintenance
- Audio Visual Solutions

Data Center Maintenance:

- We provide comprehensive maintenance services for your data center infrastructure, including regular inspections, system updates, and repairs.

- Our services ensure the continued scalability, security, and energy efficiency of your data center.

Networking Maintenance:

- Our networking maintenance services include regular inspections, updates, and troubleshooting for both wired and wireless networks, ensuring continuous high-speed connectivity and security.

🛡️ Physical Security Maintenance:

- We offer ongoing support and maintenance for access control and video surveillance systems, ensuring they remain effective and up-to-date with the latest security protocols.

((O)) Audio Visual Solutions:

- Our maintenance services for communication and collaboration solutions include regular updates, system health checks, and troubleshooting, ensuring that your video conferencing, sound systems, and digital signage solutions perform optimally at all times.

Networking Solutions

- Cabling with Dressing, Labeling, and Fluke Testing

- Wired Network Solution

- Wireless Network Solutions

- Communication Solution (VOIP)

- Network Assessment

- Wi-Fi Assessment

Cabling with Dressing, Labeling, & Fluke Testing:

- We offer comprehensive cabling services, including professional installation, precise dressing, labeling, and thorough testing using Fluke devices, ensuring your network's efficiency and reliability.

Wired Network Solution:

- Our wired network solutions (Fiber & Copper) deliver dependable, high-speed connectivity across your organization, ensuring secure and stable communication channels for all your business operations.
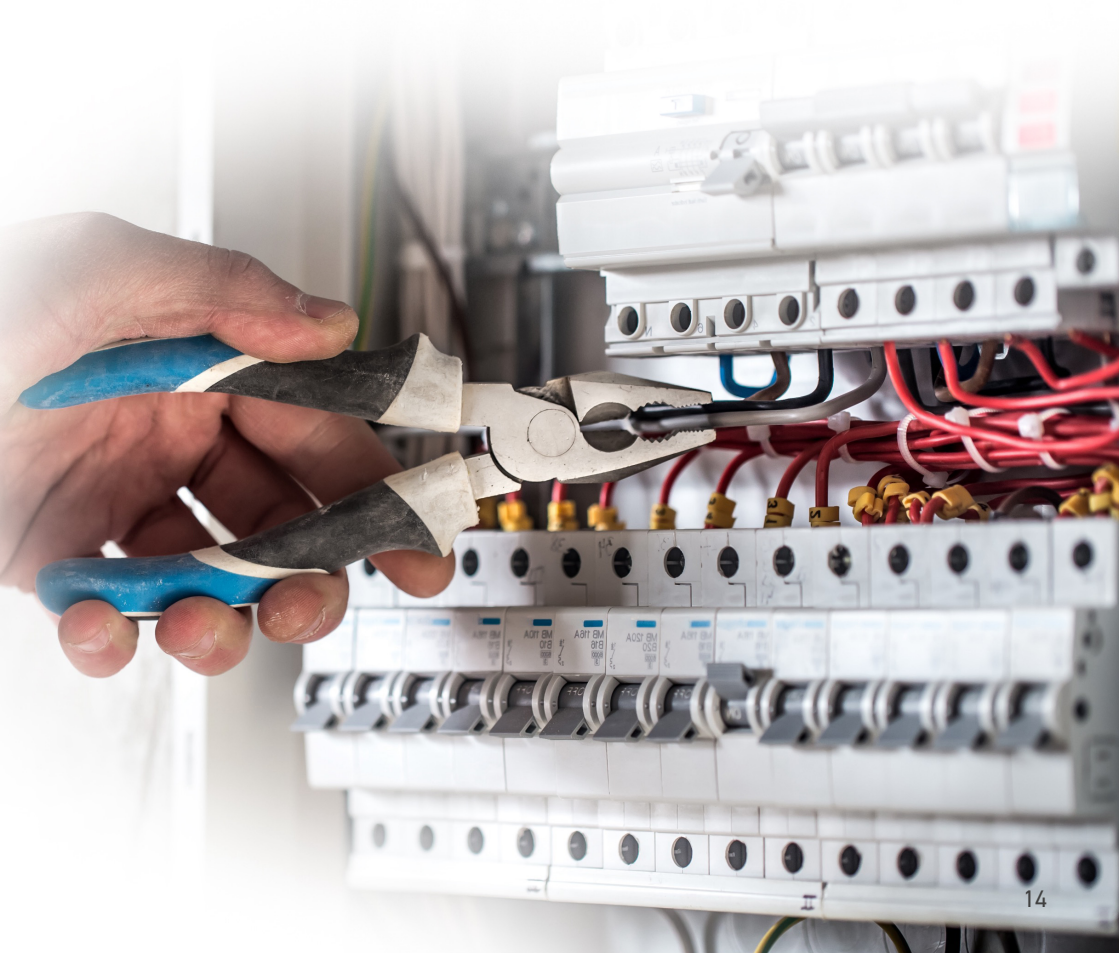

Wireless Network Solutions:

- We design and implement wireless networks that offer seamless connectivity with extensive coverage and robust security, tailored to your organization's unique requirements.

Communication Solution (VOIP):

- Our Communication Solution unifies your organization's voice and communication needs into one robust, reliable platform.

- Integrating high-quality VoIP with advanced features, it streamlines internal and external communications, ensuring seamless, secure, and efficient connectivity across all locations..

Network Assessment:

- Our network assessment services provide a comprehensive analysis of your existing network infrastructure.

- We evaluate performance, security, and scalability, offering actionable insights and recommendations to optimize your network's efficiency and reliability.

Wi-Fi Assessment:

- Our Powerful Wi-Fi planning and design for the most reliable, best performing 2.4/5/6 GHz wireless networks.

- Design, analyze, optimize and troubleshoot enterprise Wi-Fi networks.

Physical Security Solutions

- Access Control Solution & Time Attendance
- CCTV and VSS solution

Access Control Solution & Time Attendance:

- We provide sophisticated access control systems integrated with time attendance functionality, enhancing physical security while streamlining the management of employee access and attendance tracking.

CCTV and VSS solution:

- Our Video Surveillance Solutions (VSS) offer high-definition, reliable video monitoring systems to ensure comprehensive security coverage for your premises.

- These solutions provide real-time monitoring and secure video recording, crucial for deterring unauthorized access and assisting in post-incident investigations.

Audio Visual Solutions

- Video Conference Solution
- Motorized Pop-up screen for Conference table
- Sound System
- Meeting Room Booking Solution
- Digital Signage Solution
- LED Screens and Video wall Solution

Video Conference Solution:

- We deliver advanced video conferencing solutions that support seamless communication and collaboration across multiple locations, ensuring high-definition video and clear audio for effective virtual meetings.

Motorized Pop-up screen for Conference table:

- We offer motorized pop-up screens for conference tables, designed to enhance your meeting experience with seamless integration and easy accessibility.

- These elegant screens provide a clean aesthetic while delivering high-quality visuals for presentations and video conferences, ensuring that your discussions are both professional and engaging.

⊚ Sound System:

- Our expertly designed sound systems provide crystal-clear audio for a variety of settings, from small meeting rooms to large auditoriums, enhancing presentations and communications.

Meeting Room Booking Solution:

- We offer efficient meeting room booking solutions that streamline the scheduling and management of meeting spaces, reducing conflicts and improving resource utilization within your organization.

Digital Signage Solution:

- Our digital signage solutions enhance internal and external communication by delivering dynamic content displays, ideal for marketing, information dissemination, and interactive presentations.

LED Screens and Video wall Solution:

- We provide high-quality LED screens and video wall for various applications, including indoor and outdoor displays, events, and corporate settings.

- Our solutions ensure vibrant visuals and reliable performance, making your presentations and communications impactful and engaging.
